Optional modules available in any year will be communicated to you prior to your enrolment to facilitate module choice. Some optional modules may not run in every year of study, and the availability of optional modules depends on the level of student demand, the availability of specialist staff and timetabling constraints. In addition, we regularly review our curriculum to ensure it is up-to-date, relevant, draws on the latest research and addresses contemporary issues. As a result, the modules we offer may change over the course of your degree.

Optional modules are included to facilitate student choice and named pathways via a structure which ensures flexibility. In odd years, students can select between Module A or B, and in even years, between Module C or D. Pathways (e.g., AC or BD) are formed based on module selections, with details available in the course handbook. The optional modules and pathways available in alternate years include:

- Business Management (Digital Marketing)
 - Marketing Behaviour and Performance
 - Brands and Communication Strategies
- Business Management (Digital Innovation and Enterprise)
 - Digital Innovation and Transformation
 - Emerging Business Trends and Technologies

DEFINITIVE COURSE RECORD – DEFINITIVE DOCUMENT

These are pathway modules offered in alternate years so students would be able to take at either level 5 or level 6. Please see handbook for optional combinations available in this academic year.

Named Pathways: students selecting certain combinations of modules across years can qualify for named pathways as follows:

Digital Marketing Pathway: Selecting modules focused on marketing (e.g., Brands and Communication Strategies and Marketing Behaviour and Performance).

Digital Innovation and Enterprise Pathway: Choosing innovation-focused modules (e.g., Emerging Business Trends and Technologies and Digital Innovation and Transformation).

Students choosing other module combinations will receive the non-pathway award, maintaining flexibility in their learning journey. This structure ensures that over two years, students can engage with two optional modules (totalling 60 credits) that align with their academic and career goals.

Awards

On successful completion of the course, students will be awarded either a BA (Hons) Business Management [with Study Abroad], BA (Hons) Business Management (Digital Marketing) [with Study Abroad] or BA (Hons) Business Management (Digital Innovation and Enterprise) [with Study Abroad].
