Course Title	<b>PgD Professional Practice: Advancing Radiography Practice [progression route]</b>
Awarding Bodies	<b>University of Suffolk</b>
Level of Award <sup>1</sup>	<b>FHEQ Level 7</b>
Professional, Statutory and Regulatory Bodies Recognition	<b>College of Radiographers</b>
Credit Structure <sup>2</sup>	<b>120 credits comprising:</b>  <b>60 credits at level 7</b>  <b>60 credits of recognised prior learning at level 7 (see entry requirements below)</b>
Mode of Attendance	<b>Part-time</b>
Standard Length of Course <sup>3</sup>	<b>1 year part-time</b>
Intended Award	<b>PgD Professional Practice: Advancing Radiography Practice</b>
Named Exit Awards	<b>None</b>
Entry Requirements <sup>4</sup>	<ul style="list-style-type: none"> <li>• <b>Holder of a PgC in a specialist area of diagnostic or therapeutic radiography</b></li> <li>• <b>Current registration with the Health and Care Professions Council (HCPC)</b></li> <li>• <b>Currently working in the field of diagnostic or therapeutic radiography for a minimum of one year</b></li> <li>• <b>IELTS minimum band score 7 with reference to the HCPC Guidance</b></li> </ul> <p><b>This course is not open to visa sponsored students (those students sponsored by the University under the student route)</b></p>
Delivering Institution	<b>University of Suffolk</b>

This definitive record sets out the essential features and characteristics of the PgD Professional Practice: Advancing Radiography Practice [progression route] course. The information provided is accurate for students entering level 7 in the 2026/27 academic year<sup>5</sup>.

<sup>1</sup> For an explanation of the levels of higher education study, see the [QAA Frameworks for Higher Education Qualifications of UK Degree-Awarding Bodies \(2024\)](#)

<sup>2</sup> All academic credit awarded as a result of study at the University adheres to the [Higher education credit framework for England](#).

<sup>3</sup> Where the course is delivered both full-time and part-time, the standard length of course is provided for the full-time mode of attendance only. The length of the part-time course is variable and dependent upon the intensity of study. Further information about mode of study and maximum registration periods can be found in the [Framework and Regulations for Taught Postgraduate Awards](#).

<sup>4</sup> Details of standard entry requirements can be found in the [Admissions Policy](#) and further details about Disclosure and Barring Checks (DBS) can be found on the [University's DBS webpage](#).

<sup>5</sup> The University reserves the right to make changes to course content, structure, teaching and assessment as outlined in the [Admissions Policy](#).

## DEFINITIVE COURSE RECORD

### Course Summary

This course will support the development of current practitioners in an advanced professional practice role. It will enable radiographers to explore complex and current challenges, critique evidence-based practice and evaluate and enhance service delivery. During the course, students will be encouraged to critically reflect and review their personal and professional development in order to underpin their clinical performance and expertise.

The course has been designed to help experienced professionals effectively prepare for the ever-changing environment within healthcare provision and to design and implement improved ways of empowering, enabling students to lead and develop services which will have a positive impact on patient outcomes. The course is designed to provide learning which promotes inclusive, values based and sustainable care delivery in a political and evidenced based context.

### Course Aims

In providing this Postgraduate Diploma course, the course team aim to:

1. Provide the knowledge, competence and understanding to achieve the level of expertise associated with advanced practice in diagnostic imaging
2. Advance student's knowledge and critical awareness of contemporary service design, planning and delivery
3. Develop critical evaluation skills through competent debate to enable the student to enhance their communication skills in the professional arena
4. Promote a high level of autonomy and self-direction within a student's area of practice, incorporating a strong emphasis of evidence-based practice
5. Enable students to apply their knowledge in the evaluation of professional practice and lead in complex situations
6. Explore the concepts of contemporary health issues and apply knowledge to current practice

### Course Learning Outcomes

The following statements define what students graduating from the PgD

Professional Practice: Advancing Radiography Practice [progression route] course will have been judged to have demonstrated in order to achieve the award. These statements, known as learning outcomes, have been formally approved as aligned with the generic qualification descriptor for level 7 awards as set out by the UK Quality Assurance Agency (QAA)<sup>6</sup>.

On successful completion of the Postgraduate Diploma students will be able to:

1. Actively engage with colleagues to discuss and critically debate a variety of issues and perspectives.
2. Take a lead in promoting a culture of evidence-based practice in contemporary service design, planning and delivery of imaging/radiography services
3. Critically evaluate and appraise existing sources of information to facilitate problem solving skills in a variety of theoretical and practical settings within of imaging/radiography services
4. Work collaboratively with others to enhance the understanding of effective integrated care delivery and the role of imaging/radiography

### Course Design

The design of this course has been guided by the following QAA Benchmarks / Professional Standards / College of Radiographers Competency Frameworks:

- Diagnostics: Recovery and Renewal – Report of the Independent Review of Diagnostic
- Services for NHS England (NHS England, 2020: Publication reference PAR242)

---

<sup>6</sup> As set out in the [QAA Frameworks for Higher Education Qualifications of UK Degree-Awarding Bodies \(2024\)](#)

## DEFINITIVE COURSE RECORD

- Multi-professional framework for advanced clinical practice in England (NHS England, 2017)
- The College of Radiographers' Education and Career Framework (CoR, 2023)

### Course Structure

The PgD Professional Practice: Advancing Radiography Practice [progression route] courses comprises of two modules at level 7.

Module Specifications for each of these modules is included within the course handbook, available to students on-line at the beginning of each academic year.

	Module	Credits	Module Type <sup>7</sup>
Level 7			
	Leading and managing change	30	Mandatory
	Research Methods	30	Mandatory

### Awards

On successful completion of the course, students will be awarded Postgraduate Diploma Professional Practice: Advancing Radiography Practice.

### Course Delivery

The course is delivered at University of Suffolk, Ipswich Campus. Students studying part-time on the PgD Professional Practice: Advancing Radiography Practice [progression route] are likely to have approximately 61 contact hours.

The contact hours will be a mix of interactive lectures, seminars and workshops. Students will normally be expected to undertake 19 hours of independent study in an average week but should be prepared for this to vary based on assignment deadlines and class exercises.

### Course Assessment

A variety of assessments will be used on the course to enable students to experience and adapt to different assessment styles. The assessment methods used will be appropriate to assess each module's intended learning outcomes. Assessment on the course overall will consist of coursework including assignments, presentations and reports.

### Special Features

On successful completion of the PgD Professional Practice: Advancing Radiography Practice [progression route] students will meet the requirements for Enhanced Practice.

### Course Team

The academic staff delivering this course are drawn from a team that includes teaching specialists and current practitioners. All staff are qualified in their subjects with their own specialist knowledge to contribute and are registered with the appropriate professional body.

### Course Costs

Students undertaking PgD Professional Practice: Advancing Radiography Practice [progression route] will be charged tuition fees as detailed below.

Student Group	Tuition Fees
Part-time UK	£1,665 per 30 credit module

<sup>7</sup> Modules are designated as either mandatory (M), requisite (R) or optional (O). For definitions, see the [Framework and Regulations for Taught Postgraduate Awards](#)

## DEFINITIVE COURSE RECORD

Part-time EU/International	£2,670 per 30 credit module
----------------------------	-----------------------------

Payment of tuition fees is due at the time of enrolment and is managed in accordance with the Tuition Fee Policy.

### **Academic Framework and Regulations**

This course is delivered according to the Framework and Regulations for Taught Postgraduate Awards and other academic policies and procedures of the University and published on the [website](#).
