managers and senior leaders across several different industries and sectors who are wanting to boost their career prospects whilst continuing to work.

Students will be involved in live management issues through various projects and assessments, developing leadership and management skills, and undertaking both group-based and individual work. The blended approach to the Suffolk MBA combines a multitude of different traditional classroom learning supported by additional forms of online learning and a Postgraduate Workshop Series. The Postgraduate Workshop Series aims to address a wide range of current management issues and offers an opportunity to discuss these themes with academics and practitioners.

At the University of Suffolk, we actively encourage students to fundamentally question generally accepted management and leadership understanding by drawing upon the full range of social scientific knowledge. Not only does this develop a greater awareness of the complex nature of organisations and their functions, but it develops the transferable skills of evaluation and analysis required of senior management. This enables students to respond creatively and effectively to the challenges presented by a global business environment, and to broaden the range of management responsibilities they undertake.

### **Course Aims**

The overall aim of the SMBA is to develop the analytical and strategic management skills of the students using concepts derived from a wide range of academic disciplines, thus enabling them to respond creatively and effectively to the challenges of the local and global business environment.

This overall aim embraces several distinct and individual aims.

- To provide a coherent and integrated course of study that will satisfy the needs of students and organisations operating within increasingly complex, dynamic and diverse external environments.
- To develop students' intellectual ability; based on analysis, synthesis and reflection, to analyse complex and changing environments.
- To enable students, in terms of personal efficacy, to plan, develop and implement responses to changing environments using an interdisciplinary approach to management.
- To enable students to identify sources of sustainable strategic advantage for an organisation but also to be more self-confident in managing and dealing with strategic level issues.
- To provide an opportunity for experienced specialists to broaden the range of management responsibilities they can undertake with confidence.

### **Course Learning Outcomes**

aligned with the generic qualification descriptor for level 7 awards as set out by the UK Quality Assurance Agency (QAA)<sup>6</sup>.

By the end of the SMBA course participants are expected to demonstrate the following:

1. A systematic, critically informed understanding of organisations and how they are managed.
2. The ability to apply relevant knowledge to dealing with complex situations while simultaneously exercising a sensitivity to extant relationships, cultural considerations and formal procedures elsewhere in the business or organisation
3. The awareness and ability to both marshal and manage the implications of ethical dilemmas and work proactively with others to formulate appropriate solutions to these dilemmas.
4. A critical awareness of both current and prospective issues in business and management informed by leading edge research and practice in the field with a focus on marketing or leadership.
5. An understanding of appropriate techniques to allow thorough investigation of relevant business and management issues.
6. A practical understanding of how both established and evolving techniques of research and enquiry are used to generate relevant knowledge as well as an understanding of how that knowledge may be applied creatively.
7. Increased critical awareness and the ability to undertake analysis of complex, incomplete or contradictory areas of knowledge and communicating the outcome effectively.
8. The ability to conduct research into business and management issues that requires familiarity with a range of relevant data in order to inform the learning process, as well as a level of conceptual understanding to critically evaluate published research in order to identify new or revised approaches to practice.
9. The ability to navigate the challenges of working under pressure in a group as either member or leader, where appropriate.
10. The ability to communicate complex data effectively, both orally and in writing, and to demonstrate professionalism and proficiency in the use of relevant media.

## **DEFINITIVE COURSE RECORD**

On successful completion of the course, depending on module selection, students will be awarded either a Suffolk Master of Business Administration, Suffolk Master of Business Administration (Leadership), Suffolk Master of Business Administration (Marketing), or Suffolk Master of Business Administration (Integrated Care).

Students who leave the course early may be eligible for a PgD Business Administration on successful completion of 120 credits, a PgC Business Administration on successful completion of 60 credits, or a PgC Business Administration (Integrated Care) on successful completion of 60 credits comprising the Leadership & Organisational Behaviour module and the Health and Care Integration: Policy, systems, practice and leadership module.

### **Course Delivery**

The course is delivered at Ipswich. Students studying full time will have 3.5 tutor-structured learning hours per week for 4 weeks (on Wednesday 17:00 – 20:30) and 2 Saturdays (10:00-16:00) (block delivery) per 30 credit module equalling 26 hours of tutor-structured teaching. 15-credit modules run similar to the above but with 1 Saturday 20 hrs of tutor structured learning. Three modules will be studied each semester. Students studying part time are likely to pick and choose modules as they see fit, but with the recommendation of them aiming to complete 2 modules a semester. Blended Delivery is a mode of study which encompasses both online and face to face learning. Students receive access to online learning materials and a module leader for each class studied. Students primarily attend campus for the face-to-face element, whilst also accessing online material which acts as a signpost / guides you towards more in-depth exploration of the subject. Tutor-structured learning will be a mix of lectures, seminars, and practical activities. Full-time students will normally be expected to undertake 24 hours of independent study in an average week but should be prepared for this to vary based on assignment deadlines and class exercises.

### **Course Assessment**

A variety of assessments will be used on the course to enable students to experience and adapt to different assessment styles. The assessment methods used will be appropriate to assessing each module's intended learning outcomes. Assessment on the course overall will be 100% coursework (including live projects, essays, reports, a vlog recording, a viva, group work, and research projects).

### **Course Team**

The academic staff delivering this course are drawn from a team that includes teaching specialists and current practitioners. All staff are qualified in their subjects with their own specialist knowledge to contribute.
