Delivering Institution	<b>Ipswich</b>

This definitive record sets out the essential features and characteristics of the PgD Advanced Healthcare Practice course. The information provided is accurate for students entering level 7 in the 2017-18 academic year<sup>5</sup>.

### Course Summary

This programme of study has been designed to meet the needs of a diverse range of health and social care professionals including Nurses, Midwives, Health Visitors, Allied Health Professionals and those working in the field of social care practice.

Students will be supported to develop a critical awareness of current problems and new insights at the forefront of their professional practice. Students will examine care development and delivery from their own professional standpoint and also take account of how other disciplines challenge and contribute to the quality of care delivery.

This Post Graduate Diploma provides the opportunity for students to engage in a critical exploration of the Advanced Practice agenda in healthcare practice coupled with modules designed to facilitate knowledge and skills in relation to assessment/examination skills and pathophysiology during the first year of study. Year two commences with the Non-Medical Prescribing module which should be considered core unless the student has already completed the Prescribing qualification or works in a profession where Non-Medical

<sup>1</sup> For an explanation of the levels of higher education study, see the [QAA Frameworks for Higher Education Qualifications of UK Degree-Awarding Bodies \(2014\)](#)

<sup>2</sup> All academic credit awarded as a result of study at the University adheres to the [Higher education credit framework for England](#).

<sup>3</sup> Where the course is delivered both full-time and part-time, the standard length of course is provided for the full-time mode of attendance only. The length of the part-time course is variable and dependent upon the intensity of study. Further information about mode of study and maximum registration periods can be found in the [Framework and Regulations for Taught Postgraduate Awards](#).

<sup>4</sup> Details of standard entry requirements can be found in the [Admissions Policy](#)

<sup>5</sup> The University reserves the right to make changes to course content, structure, teaching and assessment as outlined in the [Admissions Policy](#).

## **DEFINITIVE COURSE RECORD**

Prescribing is not supported. In this case, students will be supported by the course team to choose two optional modules of study.

### **Course Aims**

- To enable students to engage in critical debate of issues pertinent to the roles and responsibilities within advanced professional practice and respond to them appropriately
- To develop practitioners who are able to work in a professionally autonomous way within their area of practice and who are accountable for their own professional and clinical decisions
- To enable students to critically evaluate personal and professional development needs in relation to advanced professional practice and implement appropriate responses
- To enable student's to meet the challenges of undertaking research at master's level within their field of practice
- To develop an individual who is able to act as a role model and an educator to initiate change and management development opportunities within the clinical setting

### **Course Learning Outcomes**

The following statements define what students graduating from the PgD Advanced Healthcare Practice course will have been judged to have demonstrated in order to achieve the award. These statements, known as learning outcomes, have been formally approved as aligned with the generic qualification descriptor for level 7 awards as set out by the UK Quality Assurance Agency (QAA)<sup>6</sup>.

At the end of the course students will be able to:

#### **Knowledge and understanding and cognitive skills**

1. Independently propose and evaluate alternative approaches to person-centred practice
2. Critically appraise conceptual models, theories and vocabulary in the subjects covered within the course
3. Deal with complexity and contradiction in knowledge proffered for practice
4. Make sound judgments in the absence of complete data
5. Discern between different research methods and their suitability for undertaking research in specific areas of person centred, compassionate care
6. Demonstrate systematic knowledge, understanding and critical awareness of current problems within their field of practice
7. Synthesise information and ideas and develop a creative approach to problem solving in advanced practice
8. Engage with colleagues to discuss and critically debate a variety of perspectives

---

<sup>6</sup> As set out in the [QAA Frameworks for Higher Education Qualifications of UK Degree-Awarding Bodies \(2014\)](#)

## **DEFINITIVE COURSE RECORD**

9. Critically evaluate the impact of health and social care policy on patients / clients / relevant others and health care practitioners and evaluate the culture of the specific clinical area of work in relation to the institution in which they practice
10. Undertake a comprehensive assessment of a patient and accurately interpret findings in order to develop a suitable plan of person centred, compassionate care

### **Subject Specific Skills**

11. Demonstrate expertise in a variety of contexts within their field of practice
12. Effectively engage others in the delivery of enhanced, person-centred care
13. Take responsibility for personal and professional development in relation to advanced practice
14. Work as an autonomous practitioner within an inter-professional team that values person centred care
15. Demonstrate the ability to deliver an appropriate range of interventions based on the situation of the patient
16. Identify the scope and limitations of their role, including critically evaluating legal and ethical implications with respect to other members of staff, local and national policies and frameworks

### **Key / Common Skills**

17. Critically analyse and appraise existing sources of information
18. Critically evaluate elements of management and leadership in relation to the advanced practice role
19. Demonstrate the ability to present complex arguments to a group in a competent manner
20. Demonstrate self-reflectivity and an awareness of the need for continuing professional development
21. Work collaboratively with others within health care and the wider environment to enhance the understanding of advanced professional practice
22. Utilise problem-solving skills in a variety of theoretical and practical settings

### **Course Design**

The design of this course has been guided by the following Professional Standards and Royal College of Nursing Competency Frameworks:

- RCN Domains and Competencies for Advanced Practice
- NHS Knowledge and Skills Framework
- Department of Health Advanced Practice Competencies

## DEFINITIVE COURSE RECORD

### Course Structure

The PgD Advanced Healthcare Practice comprises modules at level 7.

Module Specifications for each of these modules are included within the course handbook, available to students on-line at the beginning of each academic year.

	Module	Credits	Module Type <sup>7</sup>
Level 7			
	Principles of Advanced Healthcare Practice OR Enhancing Clinical Practice in Health and Social Care	20	M
	Holistic Assessment of Adults in Specific Care Settings	20	M
	Applied Pathophysiology for Healthcare Practitioners	20	M
	Research Methods	20	M
	And:		
	Independent and Supplementary Non-Medical Prescribing	40	O
	Or, 40 credits from the following if the Prescribing module is not appropriate:		
	Organisational Psychology	20	O
	Practical Ethics and Law	20	O
	Management & Leadership in the Practice Context (open learning)	20	O

### Awards

On successful completion of the course, students will be awarded a PgD Advanced Healthcare Practice. Students who leave the course early may be eligible for a PgC Advanced Healthcare Practice on successful completion of 60 credits.

### Course Delivery

The course is delivered at Ipswich. Students studying part-time on PgD Advanced Healthcare Practice are likely to have approximately 30 contact hours per semester. The contact hours will be a mix of lectures, seminars and practical activity. Students will normally be expected to undertake 10 hours of independent study in an average week, but should be prepared for this to vary based on assignment deadlines and class exercises.

### Course Assessment

A variety of assessments will be used on the course to enable students to experience and adapt to different assessment styles. The assessment methods used will be appropriate to assess each module's intended learning outcomes. Assessment on the course will include essays, seminar presentations, one written examination and one Objective Structured Clinical Examination during year one and a combination of essays, seminar presentations, examinations and Objective Structured Clinical Examinations during year two.

<sup>7</sup> Modules are designated as either mandatory (M), requisite (R) or optional (O). For definitions, see the [Framework and Regulations for Taught Postgraduate Awards](#)

## DEFINITIVE COURSE RECORD

### Course Team

The academic staff delivering this course are drawn from a team that includes teaching specialists and current practitioners. All staff are qualified in their subjects with their own specialist knowledge to contribute.

### Course Costs

Students undertaking PgD Advanced Healthcare Practice will be charged tuition fees as detailed below.

Student Group	Tuition Fees
Full-time UK/EU	Not applicable
Part-time UK/EU	£825 per 20 credit module
Full-time International	Not applicable
Part-time International	£1,620 per 20 credit module

Payment of tuition fees is due at the time of enrolment and is managed in accordance with the Tuition Fee Policy.

### Academic Framework and Regulations

This course is delivered according to the Framework and Regulations for Taught Postgraduate Awards and other academic policies and procedures of the University and published on the [website](#).
