This definitive record sets out the essential features and characteristics of the BA (Hons) Applied Care Practice (Mental Health Support) course. The information provided is accurate for students entering level 6 in the 2019-20 academic year<sup>5</sup>.

**Course Summary**

The programme has been developed to allow those in the care sectors to further develop existing skills, and develop a broad range of practice skills, knowledge and understanding within key subject areas and to acquire and enhance their professional values, there is a particular focus on integrated practice. The programme encourages students to reflect on the skills required to establish and maintain good working relationships with others; to gain an understanding of the individual and diverse ways that we develop; in order that they can actively support individuals and to work effectively with families, carers, the wider community, and other professionals in current or future job roles.

<sup>1</sup> For an explanation of the levels of higher education study, see the [QAA Frameworks for Higher Education Qualifications of UK Degree-Awarding Bodies \(2014\)](#)

<sup>2</sup> All academic credit awarded as a result of study at the University adheres to the [Higher education credit framework for England](#).

<sup>3</sup> Where the course is delivered both full-time and part-time, the standard length of course is provided for the full-time mode of attendance only. The length of the part-time course is variable and dependent upon the intensity of study. Further information about mode of study and maximum registration periods can be found in the [Framework and Regulations for Undergraduate Awards](#).

<sup>4</sup> Details of standard entry requirements can be found in the [Admissions Policy](#)

<sup>5</sup> The University reserves the right to make changes to course content, structure, teaching and assessment as outlined in the [Admissions Policy](#).

## DEFINITIVE COURSE RECORD

### Course Aims

1. To develop critical reflection, evaluation and argument in support of practice and the capacity to evaluate practice evidence;
2. To evaluate and critically analyse political and economic context of evidence-based practice within an inter-professional arena and to isolate origins and key components of evidenced based practice;
3. To critically evaluate their professional contribution to the support of children, young people or adults through transitions, in order to maintain/regain their individual emotional, social and developmental potential;
4. To develop and enhance the specific and generic/transferrable skills required for employment at a supervisory or managerial level and further development within the chosen career path;
5. To develop critical awareness of the issues which impact upon the delivery of effective practice in an inter-professional environment;
6. To enhance and develop advanced scholarship within the specialist sector through critical evaluation and analysis of methodologies within current and previous research through academic investigation.

### Course Learning Outcomes

The following statements define what students graduating from the BA (Hons) Applied Care Practice (Mental Health Support) course will have been judged to have demonstrated in order to achieve the award.
