Course Summary

The BA (Hons) Childhood programme embraces an interdisciplinary, multifaceted philosophy which offers an expansive platform upon which to critically explore childhoods and children's lives. Through an extensive range of modules and lenses, you will interrogate contemporary issues and debates within childhood from local, national and international contexts. An in-depth understanding of diversity and difference in children and childhoods will enabling you to develop, adopt and champion inclusive and participatory attitudes and practice throughout your studies and into your future career. We want to equip you with the skills to become change agents in your future organisations and communities.

DEFINITIVE COURSE RECORD

The programme focuses on the multi-disciplinary nature of the study of childhood, which embraces diverse academic disciplines such as sociology, education, psychology, history, philosophy, social policy and health. In the later years of study you will have the opportunity to acquire specific knowledge and understanding in specialised aspects of childhood and their associated career opportunities through one of three discreet pathways.

The *first year* of the programme provides students with a general, introductory knowledge of childhood, child development, health and education. From the *second year onwards*, you can choose to focus on one of the three distinct pathways. These pathways will be specifically named in the final degree award.

- **BA (Hons) Childhood: Disability, Health and Wellbeing:** offers a grounding in human development from an ecological perspective; health, well-being; and disability, from both a bio-psycho-social perspective and the disability-studies, rights-based approach.
- **BA (Hons) Childhood: Society and Welfare:** examines welfare ideologies and the ways in which childhood is constructed within the social structures. It explores the welfare needs of children through local, national and international institutions.
- **BA (Hons) Childhood: Education:** examines early and primary education and the underpinning values of professional practice. Practice modules are available within this pathway. You can work towards an optional Early Childhood Graduate Competencies certification, developed by the Early Childhood Degree Network (ECSDN) and supported by the Department for Education (DfE).

If you do not wish to pursue a specific pathway, you can choose modules from across the routes and achieve a multi-perspective and multi-disciplinary degree. You would then receive a general **BA (Hons) Childhood award**.

Course Aims

In providing this course, the University and the course team aim to:

- Develop students' systematic knowledge and critical understanding of the processes that shape childhood and children's lives in a range of cultural and societal contexts and through a range of disciplinary lenses.
- Cultivate a questioning and critical approach to the multiple theories, perspectives and philosophies surrounding childhood through a holistic approach, addressing different levels of analyses.
- Develop critical evaluation of contemporary issues and debates within childhood from local, national and international contexts.
- Develop an appreciation and understanding of issues of children's rights, diversity and inclusion in childhood, and ethical principles, enabling them to apply this knowledge to policy and practice.
- Develop professional, subject-specific and transferrable skills essential to employment, further study, and personal development.

Course Learning Outcomes

DEFINITIVE COURSE RECORD

The following statements define what students graduating from the BA (Hons) Childhood course (and pathways) will have been judged to have demonstrated in order to achieve the award. These statements, known as learning outcomes, have been formally approved as aligned with the generic qualification descriptor for level 6 awards as set out by the UK Quality Assurance Agency (QAA)⁶.

Students who successfully complete the BA (Hons) will have demonstrated:

1. A systematic understanding of key aspects of childhood disciplines, including acquisition of coherent and detailed knowledge, at least some of which is at, or informed by, the forefront of defined aspects of a discipline, and an appreciation of the uncertainty, ambiguity and limits of knowledge.
2. Well-developed conceptual understanding that enables the student: a) to devise and sustain arguments, and/or to solve problems, using ideas and techniques, some of which are at the forefront of a discipline; b) to describe and comment upon particular aspects of current research, or equivalent advanced scholarship, in the discipline.
3. Well-developed ability to critically evaluate arguments, assumptions, abstract concepts and data (that may be incomplete), to make judgements, and to frame appropriate questions to achieve a solution - or identify a range of solutions - to a problem.
4. Well-developed ability to apply the methods and techniques that they have learned to review, consolidate, extend and apply their knowledge and understanding, and to initiate and carry out projects.
5. Well-developed ability to manage their own learning, to make use of scholarly reviews and primary sources in order to communicate information, ideas, problems and solutions to both specialist and non-specialist audiences.
6. Well-developed qualities and transferable skills necessary for employment requiring: a) the exercise of initiative and personal responsibility, b) decision-making in complex and unpredictable contexts, c) the learning ability needed to undertake appropriate further training of a professional or equivalent nature.

Course Delivery

The course is delivered at Ipswich. Students studying full-time on BA(Hons) Childhood will be taught within a blended learning environment where structured tutor-led learning is delivered both on-campus and online. Students are likely to have approximately 48 hours structured tutor-led time per module for level 4, 44 hours structured tutor-led time per module for level 5 and 40 hours structured tutor-led time per module for level 6. This tutor-led time will be a mix of synchronous and asynchronous learning activities such as lectures, seminars, tutorials, and learning activities.

Students who undertake practice at level 4, and the practice modules at level 5 and 6 will be required to attend one day of work placement each teaching week plus any specific module

DEFINITIVE COURSE RECORD

requirements where necessary. Students will be expected to find their own placement although practice tutors can support students in this endeavour.

Students will normally be expected to undertake 12 hours of independent study per module in an average week, but should be prepared for this to vary based on assignment deadlines and class exercises.

Course Assessment

A variety of assessments will be used on the course to enable students to experience and adapt to different assessment styles. The assessment methods used will be appropriate to assess each module's intended learning outcomes. Overall, assessment on the course will be mostly coursework (including essays, reports, presentations, group work, reflective learning journals and research projects) alongside some traditional essay based and multiple-choice examinations and practical assessments, depending on module choice.

Course Team

The academic staff delivering this course are drawn from a team that includes teaching specialists and current practitioners. All staff are qualified in their subjects with their own specialist knowledge to contribute.

Course Costs

Students undertaking BA (Hons) Childhood will be charged tuition fees as detailed below.

Student Group	Tuition Fees
Full-time UK	£9,250 per year
Part-time UK	£1,454 per 20 credit module
Full-time EU/International	£12,150 per year
Part-time EU/International	£2,025 per 20 credit module

Payment of tuition fees is due at the time of enrolment and is managed in accordance with the Tuition Fee Policy.

Optional field trips may be offered which incur additional costs.

Students who opt to be involved in practice placements will be expected to fund their own travel and the provision of an Enhanced DBS (approx. £40) and yearly update (approx. £13).

Academic Framework and Regulations

This course is delivered according to the Framework and Regulations for Undergraduate Awards and other academic policies and procedures of the University and published on the [website](#).
