### Course Summary
The impetus for this course arose out of a unique partnership between the University of Suffolk and DanceEast in which dance has been identified as one of the fastest-growing art forms, pioneering new forms of practice and increasingly recognised for its popularity and social, artistic and cultural relevance in contemporary society. At the same time, dance has an evolving infrastructure with consequential workforce shortages and emerging opportunities for academic investigation. The University of Suffolk recognised the opportunity to develop a distinctive and future-facing course which could contribute to academic knowledge and workforce skills.

Course Design
The proposed degree delivers on the subject benchmark statements, which ‘describe the nature of study and the academic standards expected of graduates in specific subject areas’ (Subject Benchmark Statement, UK Quality Code for Higher Education, July 2015), and are reviewed by the Quality Assurance Agency for Higher Education (QAA). The relationship with a leading professional organisation and its wider networks delivers the common features (3.2) and threshold standard (7). With a particular focus on enabling diverse student interests to flourish in a professional context, the course builds subject-specific and generic skills as a foundation for work in a range of destinations (3.4). The philosophy and aims of the BA (Hons) Dance are informed by the statement below, taken from benchmark 2:2 in the QAA Defining Characteristics of Dance, Drama and Performance (2015).
‘2.2 The practical and conceptual bases of the performing arts are, therefore, discrete, diverse and interrelated. While these disciplines embrace bodies of knowledge generated through (and beyond) performance making activities, they are not constrained by a fixed set of knowledge and skills but are characterised by changing social, political and artistic values and practices; it is the dynamic nature of these cultural practices and their frequently contested nature that sustains the vitality of the subject areas. Reciprocally, the activities of students and staff impact upon and change those practices.’

**Course Structure**

The BA (Hons) Dance comprises modules at levels 4, 5 and 6 delivered over two years. Students will study at 120 credits per level, and at 180 credits per year.

Module Specifications for each of these modules is included within the course handbook, available to students on-line at the beginning of each academic year.

Course Delivery, Assessment and COVID-19

Our guiding principles for delivery during the 2020-21 academic year will be based around a rich blended learning environment, which will include some online delivery of lectures as well as face to face delivery of seminars, lab work and tutorials as applicable. Where possible assessment will be undertaken as planned and where this is not possible, e.g. on-site examinations, an equivalent assessment will be made available to students. We do not intend to have a fully online academic year for any of our students.

Our campus will be safe and welcoming for new and returning students, but we will observe – as all universities must – the government guidance in place at the time and so the delivery and assessment statements below are under continuous review as circumstances change.

Course Delivery

The course is delivered at Ipswich and DanceEast over two whole years running from September until July. Students studying full-time on the BA (Hons) Dance are likely to have approximately 12 – 15 contact hours per week during the first year of study. During the second year of study weekly contact hours will remain at 12 – 14 for level 5 and then decrease to 8 – 13 contact hours for level 6. The contact hours will be a mix of lectures, seminars, practical classes and workshops and work-based learning; and students will also be required to participate in an intensive 6 week long placement at 24 hours/ week at level 6. Placements will be arranged by the University. Students also have the option to find their own placement in consultation with the University. Students will normally be expected to undertake 15 hours of independent study in an average week, but should be prepared for this to vary based on assignment deadlines and class exercises.

Course Assessment

A variety of assessments will be used on the course to enable students to experience and adapt to different assessment styles. The assessment methods used will be appropriate to assess each module's intended learning outcomes. Assessment on the course overall will be approximately 77% coursework (including essays, reports, presentations, group work, reflective learning journals and research projects), 20 % practical assessments, and 3% assessment by examination.

Special Features

This course is delivered in partnership with DanceEast, situated in Jerwood DanceHouse, Ipswich.

Course Team

The academic staff delivering this course are drawn from a team that includes teaching specialists and current practitioners. All staff are qualified in their subjects with their own specialist knowledge to contribute and are registered with the appropriate professional body.
