Course Delivery, Assessment and COVID-19
Our guiding principles for delivery during the 2020-21 academic year will be based around a rich blended learning environment, which will include some online delivery of lectures as well as face to face delivery of seminars, lab work and tutorials as applicable. Where possible assessment will be undertaken as planned and where this is not possible, e.g. on-site examinations, an equivalent assessment will be made available to students. We do not intend to have a fully online academic year for any of our students.

Our campus will be safe and welcoming for new and returning students, but we will observe – as all universities must – the government guidance in place at the time and so the delivery and assessment statements below are under continuous review as circumstances change.

Course Delivery
The course is delivered at Ipswich. Students studying full-time on BA (Hons) Event and Marketing Management are likely to have approximately 216 contact hours for level 4, 195 contact hours for level 5 and 164 contact hours for level 6. The contact hours will be a mix of lecture, seminar and practical activities. Students will also be required to participate in 100 hours of work-based learning opportunity in level 5 and again in level 6. Full-time students will normally be expected to undertake 25-30 hours of independent study in an average week; but should be prepared for this to vary based on assignment deadlines and class exercises.

Students are responsible for finding and agreeing their own placement host. The University will provide support with this and will advise and agree suitable placements.

For a full year of professional practice, students are expected to engage in 1090 hours of professional practice (including 30 weeks of supervised and relevant work experience), 10 hours of tutorials and online support and 100 hours of independent study.

Course Assessment
A variety of assessments will be used on the course to enable students to experience and adapt to different assessment styles. The assessment methods used will be appropriate to assess each module’s intended learning outcomes. All assessment on the course will be coursework including essays, reports, presentations, group work, reflective learning journals and research projects.
