of their working time in educational activities. The pattern of working for apprentice students, include them attending teaching and learning modules, one day a week during semester one and two, in years 1, 2 and 3. They will attend the same lectures, on those days, as full-time students, and complete the same assignments (in year three apprentice students will have a slightly modified programme to accommodate the EPA requirements). The new apprenticeship model is employer funded and it is employers who identify potential candidates to attend the BA (Hons) Social Work [degree apprenticeship) programme and decide on the academic entry requirements. The University of Suffolk has been working closely with Local Authorities (LA) to explore this model of provision and we have had regular meetings with the LA to critically tease out how this model might work.

Course Delivery, Assessment and COVID-19
Our guiding principles for delivery during the 2020-21 academic year will be based around a rich blended learning environment, which will include some online delivery of lectures as well as face to face delivery of seminars, lab work and tutorials as applicable. Where possible assessment will be undertaken as planned and where this is not possible, e.g. on-site examinations, an equivalent assessment will be made available to students. We do not intend to have a fully online academic year for any of our students.

Our campus will be safe and welcoming for new and returning students, but we will observe – as all universities must – the government guidance in place at the time and so the delivery and assessment statements below are under continuous review as circumstances change.
